## Intelligent Workforce Management for Executives

You have worked hard to make your organisation the best in quality patient care, modern facilities and innovative technology. But even the best healthcare facilities often overlook the large expenditures resulting from manual rostering. Overlooked inefficiencies often give birth to much larger issues, including difficulty retaining qualified staff, breaches in compliance, uncontrolled agency costs and inability to report on important data.

Aesop's automated rostering and shift fulfilment allow optimum efficiency in your organisation's rostering. Most importantly for you, Aesop provides detailed, real-time data to help you make accurate and informed decisions focused on cutting operational costs and improving your bottom line.

### Real Challenges

Manual rostering does not efficiently fill the roster or provide valuable data.

- *Struggling* to control labour costs like overtime and agency usage
- *Lacking* staffing trend reports for better budget management
- *Seeking* to attract and retain qualified nurses
- *Trying* to prevent costly payroll errors
- *Worrying* about compliance, liability and accreditation
- *Ensuring* patient safety by effectively enforcing organisational policies
- *Minimising* the costs and impact of new processes and applications

### Real Solutions

With Aesop, you get fast, efficient rostering plus a stream of useful data.

- *Cut* costs by managing overtime and utilising your own employee pool
- *Access* unlimited custom reports to analyse trends and better forecast your labour budget
- *Boost* employee satisfaction by offering self-service and eliminating favoritism
- *Integrate* your roster with payroll
- *Track* compliance automatically to avoid breaching requirements
- *Enforce* employee work limits and necessary skills for shifts
- *Avoid* a large IT investment by using Software-as-a-Service

### So what can Aesop do for you?
