FRONTLINE[™]
PLACEMENT • TECHNOLOGIES

System Integrations Streamline your workflow

At Frontline Placement Technologies, we are dedicated to bringing additional value to your organisation by integrating Aesop with systems in your environment. Through integrations, our customers reclaim hours of manual data entry time, improve their use of available resources and gain greater accuracy by eliminating mistakes in dual data entry.

We are continually expanding and developing our services to meet user needs. That's why we have a dedicated integration team committed entirely to listening to client suggestions and turning them into real solutions.

What are the Benefits?

- *Significantly reduce the risk of errors from data entry*
- *Reclaim time spent manually entering employee data into accounting, human resource or payroll systems*
- *Optimise staff resources by eliminating tedious paperwork*

How Does It Work?

- *The Aesop team can build custom integrations with your accounting, HR, payroll and other software systems*
- *Aesop already integrates with 60+ best-of-breed software systems*
- *Using the custom report writer in Aesop, data can easily be consolidated and exported in a variety of formats*

Integrations:

The list below is a sampling of vendors with whom Frontline has integrated, but is certainly not exhaustive. Our dedicated integration team is constantly developing new integration plans for leading software vendors. Our goal is to reach higher levels of productivity for our customers, and we believe we can achieve that goal by partnering with best-of-breed software providers.
