

Real solutions for
Nursing Unit Managers

Think *differently*
Recapture clinical
care time

Aesop[®] *Automated Healthcare Rostering*

Think *Differently*

Aesop's automated healthcare rostering service enables you to:

Ensure employees get paid on time

Reduce the stress of training agency staff

Know who is where and when at any time

Save hours entering employee payroll data

Boost clinical care time

Recapture clinical care time *with automated healthcare rostering >>*

As a NUM, you were hired to be a manager, not a scheduler. The manual rostering process steals hours of your valuable time from the ones you're really there for—your patients. **Aesop**, the automated healthcare rostering system, uses the phone, web and SMS to automatically manage your roster and fill open shifts. You can set the roster rules in Aesop to match the requirements of your ward and let Aesop do the work for you, whilst always being able to access the roster in real time.

Real Challenges.

Manual rostering steals hours away from your time with your patients.

- *Spending hours creating the roster and hours more adjusting it*
- *Struggling to pay employees accurately and on time*
- *Trying to attract and retain qualified nurses*
- *Dealing with the stress of training and supervising agency nurses*

Real Solutions.

Aesop handles the roster for you while you devote your time to your patients.

- *Fill shifts automatically through the phone, web and text messaging*
- *Save data entry time by integrating your roster with payroll*
- *Improve employee satisfaction by letting nurses control their schedules*
- *Reduce the cost and hassle of hiring expensive agency nurses*

So what can Aesop do for you?

Over 1.5 million users worldwide have discovered the benefits of better managing time through Aesop! Call us or visit www.AesopHealthcare.com.au to find out how Aesop can improve your healthcare organisation's rostering process.

Protected under Australian Patent 776929
and US Patents 6,334,133, 6,675,151, and
